Contract Solutions

DESIGN WITHOUT COMPROMISE

Did you know Omexco is the **ideal partner** for contract solutions? We offer a complete range of wallcoverings that brings character and refinement to hospitality, retail and office environments worldwide. With unique textures, natural materials and a strong commitment to sustainability, our collections **elevate interiors** while aligning with today's design and environmental standards.

Our **High Performance** wallcoverings are specially developed to stand up to the everyday rhythms of public spaces, meeting the **technical and safety requirements** of demanding environments while retaining the tactile richness and natural inspiration that define us.

For 50 years, architects and designers worldwide have trusted Omexco as a reliable partner, supported by high-quality service from start to finish that ensures a seamless collaboration where performance and beauty meet.

Be it the *refinement* of natural fibres or the *resilience* of High Performance, we have a solution to enrich every project.

HIGH PERFORMANCE

Introducing a new generation of wallcoverings, specifically designed for **highly demanding environments**. Our innovative, eco-friendly alternative to vinyl combines exceptional technical performance with sustainable materials, making it the perfect choice for contract interiors worldwide.

Engineered for durability, these non-woven wallcoverings are:

- Scrubbable
- Extra washable
- Bleach cleanable
- Fire-rated
- Breathable

These characteristics ensure they stand up to **intensive use** while maintaining their refined look and feel. High Performance embodies a premium vision of wall decoration, offering lasting beauty and resilience without compromising on environmental values.

In addition, our High Performance collections are **IMO certified**, meeting the safety standards set by the International Maritime Organisation. This makes them the perfect solution for cruise ships, yachts and other marine environments where fire safety and resilience are essential.

OUR SUSTAINABILITY APPROACH

Sustainability is at the core of Omexco's philosophy. Every collection is developed by combining **refined design** with **responsible production** practices:

- Every order cut to size to minimise waste
- Reuse of rainwater and up to 50% of wastewater
- Non-woven materials with at least 50% recycled fibres
- PVC-free, water-based inks, no solvents or heavy metals
- 3,500 m² of solar panels on the roof of our factory, covering full electricity needs
- Partnerships with FSC-certified suppliers and responsible craftsmen

CONTRACT PROJECTS

Omexco wallcoverings is **the trusted partner** for prestigious projects around the world, from luxury hotels and restaurants to flagship stores and office spaces. Designers and architects choose our collections for their refined aesthetics, technical performance and sustainable values. These projects show how our wallcoverings can elevate a guest room, bring character to a retail environment or **ensure durability** in high-traffic areas.

In hotel bedrooms, atmosphere and comfort are at the heart of every stay. Our wallcoverings provide a refined backdrop that enriches the guest experience with unique textures, natural materials and timeless design. With a wide choice of finishes, colours and patterns, we offer designers the freedom to shape restful or distinctive interiors that leave a lasting impression.

From **serene suites to vibrant boutique interiors**, Omexco helps shape memorable guest experiences through design.

Lobbies and corridors are the beating heart of a hotel, welcoming guests while enduring the highest levels of traffic. From the constant brushing of luggage against the walls to the occasional coffee spill, these spaces face daily wear and tear.

Our High Performance collections provide the solution: scrubbable, extra washable, bleach cleanable, fire-rated and breathable. Designed to withstand the most demanding conditions, they retain their tactile richness and refined appearance, ensuring these key spaces remain as impressive on the thousandth day as on the first.

Hotel Lobbies & Corridors

Restaurants and bars demand wallcoverings that balance style with durability. Our collections bring depth, warmth and character to dining spaces, helping to define the ambience while standing up to the practical requirements of hospitality environments. From intimate fine dining to lively bar concepts, Omexco wallcoverings enrich every setting with texture and sophistication.

Restaurants & Bars

Bathrooms require solutions that combine resilience with style. All Omexco wallcoverings are breathable, making them the perfect PVC-free choice for humid environments. The non-woven backing of our wallcoverings allows air and water vapour to pass through the wall rather than trapping moisture behind the surface.

For bathrooms or powder rooms where a sophisticated touch is desired, we offer a wide range of high-end, elegant designs. When extra washability and maximum durability are needed, our High Performance range provides the perfect solution.
